

LifeChoice **Activox**[™] 4L
Portable oxygen concentrator

Portable oxygen therapy for patients
with active lifestyles

Give oxygen patients the freedom to explore

The LifeChoice Activox 4L portable oxygen concentrator offers patients who use supplemental oxygen the freedom to travel and maintain an active lifestyle while receiving high-quality therapy.

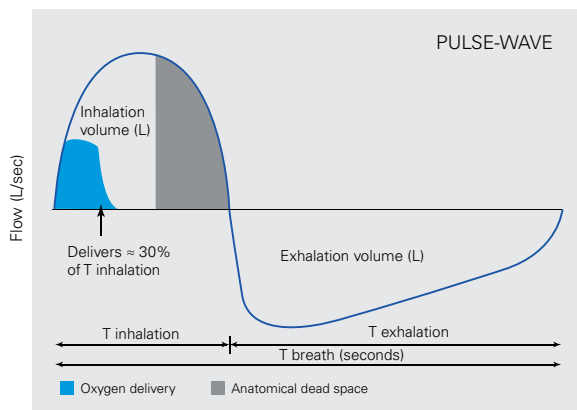

At ResMed, we're proud to be a global leader in respiratory care devices and technology that help change lives with every breath. LifeChoice Activox 4L, the first in our oxygen portfolio, combines a lightweight design, long-lasting battery life and advanced delivery technology for therapy you and your patients can rely on.

Reliable oxygen therapy for your patients

The responsive algorithms of the LifeChoice™ Activox 4L deliver the right dose of oxygen, exactly when it's needed. The powerful Auto Mode and PULSE-WAVE™ technologies work together to keep your patients supplied with oxygen around the clock.

Efficient oxygen delivery

- PULSE-WAVE technology delivers the required dose of oxygen at the right time, helping maximize therapy effectiveness and minimize waste.
- Auto Mode detects changes to patient's breathing rate and adapts the delivery of oxygen.

Lifechoice Activox 4L

LifeChoice Activox 4L Package

Multi configuration carry case

Use as a backpack, shoulder bag, waist pack or briefcase

Adjustable straps

For use with multi configuration carry case

DC charger

For charging on the go in vehicle
