View and Print Reports

Description:

You can view, print, or save a copy of the patient's diagnostic report.

To create a diagnostic report:

1. Open a patient's record from the **Diagnostic patients** list.
2. To open the report, click **Diagnostic Report** under the **Reports** panel.
3. The report is displayed in a new tab in Adobe PDF format which you can either save as a file or print, if required.
