

Viewing Device Logs (Astral, Stellar and Lumis devices)

Description:

Astral, Stellar, and Lumis devices provide device logs to AirView that can be viewed and filtered to provide additional data for the patient record.

To access the Device logs page:

1. From the patient's record, click the **Logs** tab.
2. Select **Device logs** from the left menu.

To filter the Device logs page:

1. Select the required criteria from the drop-down lists.
2. Click **Apply**.
3. The Device logs page will be filtered to only display patient records that match the selected criteria.
